

Dr Stephan Padlewski

President, Andromède Consulting SAS

Échenevex (Pays de Gex), France

spadlewski@andromedeconsulting.com +33 6 74 61 11 00 +41 79 251 85 05

Profile

Physicist (Ph.D., University of Cambridge) turned cleantech entrepreneur, with three decades at DuPont in electronics materials and photovoltaics, including more than a decade as Technical & Marketing Director for the PV segment across EMEA. Through Andromède Consulting SAS, Stephan provides technical services in materials science, product transformation and new applications for the clean-energy industry, and co-founds and invests in companies across the solar value chain: PV asset operation, PV reliability and repair, European PV manufacturing, and battery energy storage.

> **Accredited R&D and innovation provider** — Andromède is approved by the French Ministry of Higher Education and Research under the **Research Tax Credit (CIR)** and the **Innovation Tax Credit (CII)** for 2025 – 2027: R&D and prototype work carried out for client companies is eligible for these tax credits.

Photovoltaics · PV reliability & backsheet repair · Battery storage (BESS) · Materials science & polymers · Industrial scale-up · Technical marketing & growth strategy · Start-up creation & investment

Fields of activity & investment

PV ASSET OWNER & OPERATOR · SINCE 2012

PARKSUN SAS

Founding Partner & Technical Advisor

West of France. Develops and operates a portfolio of large commercial-rooftop PV systems.

PV RELIABILITY SERVICES · SINCE 2022

DOTSun SAS

CTO & Founding Partner

Technical services for PV operators, banks and insurers: audits of ageing utility-scale assets (visual, IV, IR, data analysis) and on-site repair of modules affected by premature backsheet degradation.

www.dotsun.fr stephan.padlewski@dotsun.fr

EU PV MANUFACTURING · SINCE 2022

Bee Solar

Founding Partner

Milan-based. Develops a GW-scale PV manufacturing facility in Northern Italy (ingot, wafer, cell and module) to strengthen the European solar supply chain, alongside utility-scale PV projects in Italy.

www.beesolar.eu stephan.padlewski@beesolar.eu

ENERGY STORAGE

BESS Luçon 85

Founding Partner

Develops, invests in and operates large battery energy storage (BESS) projects in France, standalone or combined with existing PV systems, with a current pipeline of over 10 MW of projects at various stages of development.

Career

2022 – present
President, Andromède Consulting SAS — Échenevex, France
Technical services and start-up creation in cleantech: DOTSun, Bee Solar, BESS Luçon 85; PARKSUN (2012). CIR / CII approved 2025 – 2027.

2008 – 2022
Photovoltaics – Technical & Marketing Director EMEA, DuPont — Geneva
Led technical and innovation activities for the PV segment across EMEA; led the development of a Tedlar®-based tape to repair degraded PV backsheets.

2004 – 2008
Corporate Business & Technology Leader, DuPont — Geneva
Regional strategy and business development across ECEMEA.

1992 – 2004
R&D, technology and business development roles, DuPont — Germany, France, USA
Electronics materials (PCB, IC packaging), then AM-OLED and flexible displays business development.
